

Major Selling Points

- Teller Cheques — add, delete, or modify client information at the teller station allowing you to create personalized sets of starter cheques for your customers
- Global Serialization — guarantees uniqueness of cheque number; multiple pools of cheque numbers are associated with bank account numbers
- Customer Service — ability to print cheques at the teller station without long customer wait times
- Customization — create databases of customer information for personal cheques and vendor information for official cheques

TROY[®] Checkwriting Software - Teller Edition

Whether you print ten cheques a month or hundreds of cheques a day, TROY[®] Checkwriting Software will streamline your cheque printing process. A system that is easy to use, Teller Edition allows the front line to print bank documents for customers when they need them.

The ability to print detailed personal information on cheques simplifies the reorder process. It also protects clients against fraudulent use of starter cheques.

Client Information

The ability to incorporate your current client list with TROY[®] Checkwriting Software - Teller Edition is a simple integration from your current system to the software, eliminating the need to re-enter customer information.

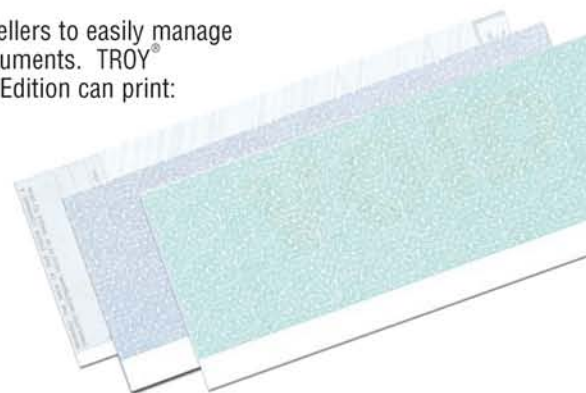

Customer information is entered in an easy-to-use screen, which is saved in a database for future use. Database structure is fixed, and in network applications can be used by any teller on the network.

Print all your bank documents from one system

Straightforward menus allow tellers to easily manage the printing of customized documents. TROY[®] Checkwriting Software - Teller Edition can print:

- Starter Cheques
- Business Cheques
- Money Orders
- Deposit Slips
- Official Cheques

Complete the Solution

- **TROY[®] MICR Security Printers** - fonts are embedded in the printer, reinforcing security; in addition locking trays help protect against blank document theft
- **TROY[®] MICR Security Toner** - a patent-pending formulation helps to protect the words and graphics that you are printing
- **TROY[®] MICR Toner** - made in new OEM cartridges this high-quality MICR will not void manufacturer's warranty
- **TROY[®] Cheque Paper** - with a full selection of stock to choose from TROY[®] can be your one stop solution for all of your teller printing needs

Business Partner
